| <input checked="" type="checkbox"/> Nonprofits or local coalitions | <input type="checkbox"/> Businesses or labor organizations |
| <input type="checkbox"/> Schools or universities | <input type="checkbox"/> Media |
| <input checked="" type="checkbox"/> Health care providers | <input checked="" type="checkbox"/> Local public health departments |
| <input type="checkbox"/> State public health departments | <input type="checkbox"/> Policymakers |
| <input type="checkbox"/> Hospitals, clinics or managed care organizations | <input type="checkbox"/> Other: |

Background on the intervention:

Nurse-Family Partnership (NFP) provides first-time, low-income mothers of any age with home visitation services from public health nurses. NFP nurses work intensively with new mothers to improve maternal, prenatal, and early childhood health and well being with the expectation that this intervention will help achieve long-term improvements in the lives of at-risk families.

Findings from the systematic reviews:

The Substance Abuse and Mental Health Services Administration (SAMHSA) cites Nurse-Family Partnership (NFP) as a model program. See the link below for more information.
